

J3600

A NEW LEVEL OF RUGGED MOBILE PERFORMANCE WITH THE MOTION J3600

It's lightweight. It's rugged. And it's packed with integrated features that provide the performance, manageability and security your mobile workplace demands. Introducing the J3600 Tablet PC from Motion Computing® with Intel® vPro™ Technology. Designed specifically with the mobile field professional in mind, this robust device takes powerful computing directly to the point of service.

GET READY FOR SEAMLESSLY-INTEGRATED POWER.

Power through your workday with the Motion® J3600 Tablet PC. Equipped with up to the Intel® Core™ i7 vPro™ processor, optimized for mobility, the J3600 offers uncompromising levels of security, power and manageability. Built rugged for harsh work environments and with dual hot-swap batteries, the Motion J3600 delivers virtually unlimited productivity.

Improve inspection time and accuracy. Ensure the best technician is equipped with the right tools to complete the job. Enhance visibility into inventory availability. With the J3600, point-of-service documentation and collaboration are seamless. Adding in a variety of tailored mobile accessories and on-the-go productivity is easier than ever.

The J3600, running Microsoft® Windows, seamlessly supports business-critical mobile tasks. Take advantage of touch navigation or use the stylus for completing forms and capturing customer signatures. Stay connected with integrated Wi-Fi 802.11 a/b/g/n and enhanced Gobi™ connectivity with integrated GPS. Document job site activities or take photos with the integrated 3.0MP digital camera. Use geo-tagging and date stamping to document proof of work in seconds.

Take your J3600 with you no matter where work takes you.

The perfect balance of performance, power and durability for any work environment.

FULLY-EQUIPPED, RUGGED AND FLEXIBLE.

The J3600 is tough enough to survive harsh mobile work environments, making your mobile job more productive. For the strongest, brightest, most viewable display, choose the Motion View Anywhere® display with Corning® Gorilla® Glass.

At only 3.6 lbs (1.6kg),¹ the J3600 might seem like a lightweight—but an internal magnesium frame for structural rigidity, port covers and a rubberized coating for dampening shock help it to meet IP52 and MIL-STD-810G standards.

Powerful, Rugged Mobile Computing at the Point of Service

ENSURE A SECURE, ROBUST MOBILE WORK ENVIRONMENT.

Work more safely, work more securely, and never sacrifice performance. With the available Intel® Core™ i7 with vPro technology², the J3600 offers advanced management, security and anti-theft capabilities. Work any place at any pace, confident that your sensitive data is safe. Add in up to a 256GB SSD and 16GB of RAM and you can take virtually any critical business application directly to the point of service. Navigate a 3D building information model (BIM), access all of the critical features in an electronic medical record (EMR) or run proprietary software applications that, when available in real time, improve information accuracy and team collaboration. Don't compromise on performance for mobility, get both with the highly flexible, powerful Motion J3600.

ACCESSORIZE YOUR SOLUTION TO MEET EVERY NEED

FlexDock Docking Station

This sleek docking station has a battery charger bay and four USB, DVI-D, Ethernet, audio and display. It can be directly mounted to VESA compatible devices, or used as a desktop replacement.

Battery Charger

An external bay to charge additional batteries. The charger's small footprint saves valuable desk space while the LED indicates battery charge status. Rapidly charge additional batteries within 2 hours.

*Additional batteries sold separately

Mobile Keyboard

The durable J-Series Mobile Keyboard is cable-less, reliable and extremely light at less than 1 lb. Attach it to the back of any J-Series Tablet PC for easy transport.

Work Anywhere Kit

For an easy, safe way to carry your J-Series Tablet PC, add a Work Anywhere Kit. With a flip cover for additional screen protection, a pouch to carry an extra battery and an attachable strap the Work Anywhere Kit is a must have accessory for any J-Series Tablet PC.

Mobile Dock Solution

With the Mobile Dock mounting and docking solution, the Motion J3600 can be mounted in almost any location with port replication and secure locking feature.

Flexible Input

Simply and efficiently navigate, input information and sign forms with the precision of the digitizer pen or the familiarity and ease of your finger.
